

“We do not need magic to
transform our world. We
carry all of the power we
need inside ourselves
already.”
- J.K Rowling

A detailed golden illustration of various flowers, including tulips and roses, set against a dark brown background. The flowers are rendered with fine lines and shading, giving them a three-dimensional appearance. The tulips are in various stages of bloom, while the roses are tightly packed with many layers of petals. The overall style is reminiscent of a woodcut or a fine-line drawing.

What we believe in comes true through the power of magic. If you believe in magic and you talk about it then you will see magic everywhere around you.

Happiness Note

What Makes You Happy?

Take this moment to describe what 'happiness'
looks like in your mind?

What will make you the happiest in life?

"Magic is believing in yourself, if you can do that, you can make anything happen."

— Johann Wolfgang von Goethe

Magic is a guide taking you from the ordinary world to something you would never experience if you don't take the first step. Believe in magic and believing in finding it in this world.

dream on

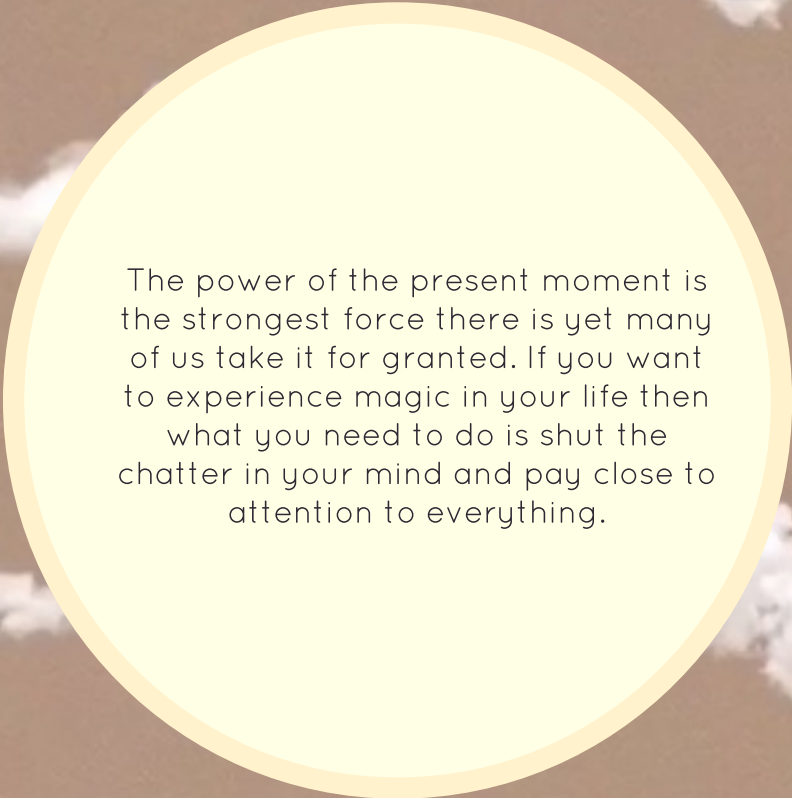

little dreamer

we are all born

so beautiful

the greatest tragedy is

being convinced we are not

The power of the present moment is the strongest force there is yet many of us take it for granted. If you want to experience magic in your life then what you need to do is shut the chatter in your mind and pay close to attention to everything.
